Contents for Volume 26, 1994

Dale H. Vitt, Linda A. Halsey, and Stephen C. Zoltai	1–13	The Bog Landforms of Continental Western Canada in Relation to Climate and Permafrost Patterns
R. V. Taylor and T. R. Seastedt	14–20	Short- and Long-Term Patterns of Soil Moisture in Alpine Tundra
Erik P. Hamerlynck and William K. Smith	21–28	Subnivean and Emergent Microclimate, Photosynthesis, and Growth in *Erythronium grandiflorum* Pursh, a Snowbank Geophyte
Brian J. Enquist and James J. Ebersole	29–34	Effects of Added Water on Photosynthesis of *Bistorta vivipara*: The Importance of Water Relations and Leaf Nitrogen in Two Alpine Communities, Pikes Peak, Colorado, U.S.A.
Robin S. Patten and Dennis H. Knight	35–41	Snow Avalanches and Vegetation Pattern in Cascade Canyon, Grand Teton National Park, Wyoming, U.S.A.
David J. Cooper and Bruce P. Van Haveren	42–45	Establishing Felt-Leaf Willow from Seed to Restore Alaskan, U.S.A., Floodplains
L. C. Bliss, G. H. R. Henry, J. Svoboda, and D. I. Bliss	46–55	Patterns of Plant Distribution within Two Polar Desert Landscapes
Serge Payette, Ann Delwaide, Claude Morneau, and Claude Lavoie	56–59	Stem Analysis of a Long-Lived Black Spruce Clone at Treeline
C. J. Earle, L. B. Brubaker, A. V. Lozhkin, and P. M. Anderson	60–65	Summer Temperature since 1600 for the Upper Kolyma Region, Northeastern Russia, Reconstructed from Tree Rings
Ørjan Totland	66–71	Influence of Climate, Time of Day and Season, and Flower Density on Insect Flower Visitation in Alpine Norway
Ramón J. Antor	72–76	Arthropod Fallout on High Alpine Snow Patches of the Central Pyrenees, Northeastern Spain
Katherine A. Adenlof and Ellen E. Wohl	77–85	Controls on Bedload Movement in a Subalpine Stream of the Colorado Rocky Mountains, U.S.A.
J. A. Dowdeswell, M. R. Gorman, A. F. Glazovsky, and Y. Y. Macheret	86–92	Evidence for Floating Ice Shelves in Franz Josef Land, Russian High Arctic
Book Reviews	93–97	*Periglacial Geomorphology*. Edited by J. C. Dixon and A. D. Abrahams; *Climate since A. D. 1500.* Edited by R. S. Bradley and P. D. Jones; *Start of a Glacial.* Edited by G. J. Kukla and E. Went; *Climate and Sea Level Change: Observations, Projections and Implications.* Edited by R. A. Warrick, E. M. Barrow, and T. M. L. Wigley; *Glaciers.* By M. Hambrey and J. Alean; *Glaciers–Ocean–Atmosphere Interactions.* Edited by V. M. Kotlyakov, A. Ushakov, and A. Glazovsky; *Erosion, Debris Flows and Environment in Mountain Regions.* Edited by D. E. Walling, T. R. Davis, and B. Hasholt
John A. Matthews and Danny McCarroll	103–115	Snow-Avalanche Impact Landforms in Breheimen, Southern Norway: Origin, Age, and Paleoclimatic Implications

Daniel J. Smith, Daniel P. McCarthy, and Brian H. Luckman	116–127	Snow-Avalanche Impact Pools in the Canadian Rocky Mountains
Brian H. Luckman, John A. Matthews, Daniel J. Smith, Danny McCarroll, and Daniel P. McCarthy	128–129	Snow-Avalanche Impact Landforms: A Brief Discussion of Terminology
Joseph R. Desloges	130–140	Varve Deposition and the Sediment Yield Record at Three Small Lakes of the Southern Canadian Cordillera
A. Watson, R. W. Davison, and D. D. French	141–151	Summer Snow Patches and Climate in Northeast Scotland, U.K.
Peter M. Lafleur and Cheryl P. Schreader	152–158	Water Loss from the Floor of a Subarctic Forest
Mats Sonesson, Colin Osborne, and Gustaf Sandberg	159–165	Epiphytic Lichens as Indicators of Snow Depth
M. Šrůtek and J. Lepš	166–173	Variation in Structure of *Larix olgensis* Stands along the Altitudinal Gradient on Paektu-san, Changbai-shan, North Korea
Serge Payette and Ann Delwaide	174–179	Growth of Black Spruce at Its Northern Range Limit in Arctic Quebec, Canada
Peter Nosko, L. C. Bliss, and F. D. Cook	180–186	The Association of Free-living Nitrogen-fixing Bacteria with the Roots of High Arctic Graminoids
Calvin J. Heusser and Yaeko Igarashi	187–192	Quaternary Migration Pattern of *Selaginella selaginoides* in the North Pacific
Book Reviews	193–194	*Canada's Cold Environments:* H. M. French and O. Slaymaker; *Arctic Politics: Conflicts and Cooperation in the Circumpolar North:* Oran R. Young; *Arctic Wars: Animal Rights and Endangered Peoples:* F. Lynge; Books Received
Information	195–196	Snow Ecology: A Report on a New Initiative; Second International Congress of Arctic Social Sciences
J. P. M. Syvitski and J. T. Andrews	199–212	Climate Change: Numerical Modelling of Sedimentation and Coastal Processes, Eastern Canadian Arctic
Antoni G. Lewkowicz and Paul M. Wolfe	213–226	Sediment Transport in Hot Weather Creek, Ellesmere Island, N.W.T., Canada, 1990–1991
Tetsuo Ohata, Teruo Furukawa, and Keiji Higuchi	227–237	Glacioclimatological Study of Perennial Ice in the Fuji Ice Cave, Japan. Part 1. Seasonal Variation and Mechanism of Maintenance
Tetsuo Ohata, Teruo Furukawa, and Kazuo Osada	238–244	Glacioclimatological Study of Perennial Ice in the Fuji Ice Cave, Japan. Part 2. Interannual Variation and Relation to Climate
Norikazu Matsuoka	245–254	Continuous Recording of Frost Heave and Creep on a Japanese Alpine Slope
Colin K. Ballantyne and Douglas I. Benn	255–269	Paraglacial Slope Adjustment and Resedimentation Following Recent Glacier Retreat, Fåbergstølsdalen, Norway

A. F. Mark	270–280	Patterned Ground Activity in a Southern New Zealand High-Alpine Cushionfield
Colin D. Meurk, Martin N. Foggo, Barbara M. Thomson, E. T. John Bathurst, and Mark B. Crompton	281–289	Ion-rich Precipitation and Vegetation Pattern on Subantarctic Campbell Island
John A. Fowbert and Ronald I. Lewis Smith	290–296	Rapid Population Increases in Native Vascular Plants in the Argentine Islands, Antarctic Peninsula
J. Miller, M. Litvak, S. Kelso, and A. Vargo	297–303	Comparative Reproductive Biology of Two Alpine Primrose Species
Shivcharn S. Dhillion	304–307	Ectomycorrhizae, Arbuscular Mycorrhizae, and *Rhizoctonia* sp. of Alpine and Boreal *Salix* spp. in Norway
R. M. M. Crawford, H. M. Chapman, and H. Hodge	308–312	Anoxia Tolerance in High Arctic Vegetation
In Memoriam	313–314	Áskell Löve, 1916–1994
Book Reviews	315–316	*The Desert's Past: A Natural Prehistory of the Great Basin*. By Donald K. Grayson; *Symbolic Immortality: The Tlingit Potlatch of the Nineteenth Century*. By Sergei Kan.
Books Received	316	
Joseph S. Walder and Carolyn L. Driedger	319–327	Rapid Geomorphic Change Caused by Glacial Outburst Floods and Debris Flows along Tahoma Creek, Mount Rainier, Washington, U.S.A.
Juan Herrero, Ricardo García-González, and Alicia García-Serrano	328–331	Altitudinal Distribution of Alpine Marmot (*Marmota marmota*) in the Pyrenees, Spain/France
V. Růžička and M. Zacharda	332–338	Arthropods of Stony Debris in the Krkonoše Mountains, Czech Republic
S. C. Garkoti and S. P. Singh	339–348	Nutrient Cycling in the Three Central Himalayan Forests Ranging from Close Canopied to Open Canopied Treeline Forests, India
Karel Prach	349–353	Vegetation Succession on River Gravel Bars across the Northwestern Himalayas, India
R. V. Densmore	354–363	Succession on Regraded Placer Mine Spoil in Alaska, U.S.A., in Relation to Initial Site Characteristics
M. L. Stanton, M. Rejmánek, and C. Galen	364–374	Changes in Vegetation and Soil Fertility along a Predictable Snowmelt Gradient in the Mosquito Range, Colorado, U.S.A.
David J. Hafner	375–382	Pikas and Permafrost: Post-Wisconsin Historical Zoogeography of *Ochotona* in the Southern Rocky Mountains, U.S.A.
Patricia L. Fall	383–392	Modern Pollen Spectra and Vegetation in the Wind River Range, Wyoming, U.S.A.

C. R. Duguay	393–402	Remote Sensing of the Radiation Balance during the Growing Season at the Niwot Ridge Long-Term Ecological Research Site, Front Range, Colorado, U.S.A.
Peter D. Blanken and Wayne R. Rouse	403–411	The Role of Willow-Birch Forest in the Surface Energy Balance at Arctic Treeline
Luc Cournoyer and Louise Filion	412–417	Variation in Wood Anatomy of White Spruce in Response to Dune Activity
Charles H. Racine and James C. Walters	418–426	Groundwater-Discharge Fens in the Tanana Lowlands, Interior Alaska, U.S.A.
Book Reviews	427–428	*Solifluction and Climatic Variation in the Holocene*: Edited by Burkhard Frenzel, J. A. Matthews, and Birgit Gläser; *Arctic Exploration and Development c. 500 B.C. to 1915: An Encyclopedia*: Clive Holland.
Information	428	Fifth International Conference on Paleoceanography
Contents and Index for Vol. 26	429–435	

Subject and Author Index for Volume 26, 1994

Acari, 332–338
Adenlof, K. A. and Wohl, E. E. (Controls on bedload movement in a subalpine stream of the Colorado Rocky Mountains, U.S.A.), 77–85
Aeolian ecology, 72–76
Alaska: Fens, 418–426; Restoration, 42–45, 354–363
Allometry, 166–173
Alnus, 354–363
Alpine: Arthropod fallout, 72–76; Climate, 66–71; Geomorphology, 116–127, 319–327; Insect flower visitation, 66–71; Marmot distribution, 328–331; Modern pollen spectra, 383–392; Mycorrhizae, 304–307; Patterned ground, 270–280; Periglacial processes, 245–254; Permafrost, 375–382; Photosynthesis, 21–28, 29–34; *Primula*, 297–303; Radiation balance, 393–402; Snowbank geophyte, 21–28; Soil moisture, 14–20; Vegetation, 364–374, 383–392; Vegetation change, 364–374; Water relations, 29–34
Altithermal conditions, 375–382
Anderson, P. M. *See* Earle, C. J., et al.
Andrews, J. T. *See* Syvitski, J. P. M. and Andrews, J. T.
Anemo-orographic system, 332–338
Anoxia in arctic plants, 308–312
Antarctic Peninsula, 290–296
Antarctic vascular plants, 290–296
Antor, R. J. (Arthropod fallout on high alpine snow patches of the central Pyrenees, northeastern Spain), 72–76
Araneae, 332–338
Arctic: Anoxia tolerance, 308–312; Climate change, 199–212; Coastal processes, 199–212; Hydrology, 199–212, 213–226; Ice shelves, 86–92; Nitrogen-fixing bacteria, 180–186; Plant distribution, 46–55; Sedimentation, 199–212, 213–226; Treeline, 174–179, 403–411; Vegetation, 308–312
Arthopod: Alpine distribution, 332–338; Fallout, 72–76
Avalanche: Impact landforms, 103–115; Impact pools, 116–127; Vegetation pattern, 35–41

Bacteria, 180–186
Ballantyne, C. K. and Benn, D. I. (Paraglacial slope adjustment and resedimentation following recent glacier retreat, Fåbergstølsdalen, Norway), 255–269
Bathurst, E. T. J. *See* Meurk, C. D., et al.
Bedload sediment movement, 77–85
Benn, D. I. *See* Ballantyne, C. K. and Benn, D. I.
Betula, 403–411
Bistorta vivipara, 29–34
Blanken, P. D. and Rouse, W. R. (The role of willow-birch forest in the surface energy balance at arctic treeline), 403–411
Bliss, D. I. *See* Bliss, L. C., et al.
Bliss, L. C., Henry, G. H. R., Svoboda, J., and Bliss, D. I. (Patterns of plant distribution within two polar desert landscapes), 46–55
Bliss, L. C. *See also* Nosko, P., et al.

Bog landforms, 1–13
Book Reviews
Arctic Exploration and Development c. 500 B.C. to 1915: An Encyclopedia. C. Holland. P. N. Cronenwett, 428.
Arctic Politics: Conflicts and Cooperation in the Circumpolar North. O. R. Young. *L. Müller-Wille*, 193–194
Arctic Wars: Animal Rights and Endangered Peoples. F. Lynge. *L. Müller-Wille*, 194
Canada's Cold Environment. H. M. French and O. Slaymaker. *J. D. Jacobs*, 193
Climate and Sea Level Change: Observations, Projections, and Implications. R. A. Warrick, E. M. Barrow, and T. M. L. Wigley. *J. T. Hollin*, 95–96
Climate Since A.D. 1500. R. S. Bradley and P. D. Jones. *K. Wolter*, 93–95
Erosion, Debris Flows, and Environment in Mountains Regions. D. E. Walling, T. R. Davis, and B. Hasholt. *M. W. Williams*, 97
Glaciers. M. Hambrey and J. Alean. *M. F. Meier*, 96–97
Glaciers–Oceans–Atmosphere Interactions. V. M. Kotlyakov, A. Ushakov, and A. Glazovsky. *M. F. Meier*, 97
Periglacial Geomorphology. J. C. Dixon and A. D. Abrahams. *L. W. Price*, 93
Solifluction and Climatic Variation in the Holocene. B. Frenzel, J. A. Matthews, and B. Gläser. *J. B. Benedict*, 427
Start of a Glacial. G. J. Kukla and E. Went. *J. T. Hollin*, 95
Symbolic Immortality: The Tlingit Potlach of the Nineteenth Century. S. Kan. *S. K. Short*, 315–316
The Desert's Past: A Natural Prehistory of the Great Basin. D. K. Grayson. *M. D. Turner*, 315

Paektu-san, North Korea, 166–173
Paleoclimate: Holocene, 103–115
Paleoenvironment, 375–382, 412–417
Palynology, 383–392
Paraglacial slope adjustment, 255–269
Patten, R. S. and Knight, D. H. (Snow avalanches and vegetation pattern in Cascade Canyon, Grand Teton National Park, Wyoming, U.S.A.), 35–41
Payette, S. and Delwaide, A. (Growth of black spruce at its northern range limit in arctic Quebec, Canada), 174–179
Payette, S., Delwaide, A., Morneau, C., and Lavoie, C. (Stem analysis of a long-lived black spruce clone at treeline), 56–59
Peatlands: Continental western Canada, 1–13
Periglacial processes, 245–254

Permafrost degradation, 1–13
Phenology, 364–374
Photosynthesis, 21–28, 29–34
Picea glauca: Wood anatomy, 412–417
Picea mariana: Clonal structure, 56–59; Stem analysis, 174–179
Pika, 375–382
Placer mining: Restoration, 42–45, 354–363
Plant distribution, 46–55
Pleistocene plant migrations, 187–192
Polar desert, 46–55
Pollen: Modern, 383–392
Pollination, 66–71, 297–303
Prach, K. (Vegetation succession on river gravel bars across the northwestern Himalayas, India), 349–353
Precipitation: Ion-rich, 281–289
Primrose: Reproductive biology, 297–303
Primula: Reproductive biology, 297–303
Process-response modelling, 199–212
Pyrenees: Arthropod fallout, 72–76; Marmots, 328–331

Quaternary plant migrations, 187–192

Racine, C. H. and Walters, J. C. (Groundwater-discharge fens in the Tanana Lowlands, interior Alaska, U.S.A.), 418–426
Radiation balance, 393–402, 403–411
Radio-echo sounding, 86–92
Reclamation, 42–45, 354–363
Refugia, 187–192
Rejmánek, M. *See* Stanton, M. L., et al.
Remote sensing, 393–402
Reproductive biology of *Primula*, 297–303
Restoration, 42–45, 354–363
Revegetation, 354–363
Rhizoctonia, 304–307
River gravel bars, 349–353
River: Boulder ramparts, 103–115
Rocky Mountains: Hydrology, 77–85; Palynology, 383–392; Pikas and permafrost, 375–382; Radiation balance, 393–402; Soil fertility, 364–374
Rouse, W. R. *See* Blanken, P. D. and Rouse, W. R.
Russia: Dendroclimatology, 60–65; Ice shelves, 86–92
Růžička, V. and Zacharda, M. (Arthropods of stony debris in the Krkonoše Mountains, Czech Republic), 332–338

Salix, 42–45, 304–307, 354–363, 403–411
Sandberg, G. *See* Sonesson, M., et al.
Schreader, C. P. *See* Lafleur, P. M. and Schreader, C. P.
Scotland: Climate change, 141–151
Sea-level fluctuations, 199–212
Seastedt, T. R. *See* Taylor, R. V. and Seastedt, T. R.
Sediment transport, 77–85, 213–226
Sediment yield, 130–140
Sedimentation: Modelling, 199–212
Selaginella selaginoides, 187–192
Siberia: Dendroclimatology, 60–65
Singh, S. P. *See* Garkoti, S. C. and Singh, S. P.
Slope adjustment, 255–269
Smith, D. J., McCarthy, D. P., and Luckman, B. H. (Snow-avalanche impact pools in the Canadian Rocky Mountains), 116–127
